Preface *vii*

Part One Outcomes of Research 1

- 1 Pathways of the Research Innovator 3
- 2 First Dimension: Scientific Impact 21
- 3 Second Dimension: Public Health Value 37
- 4 Third Dimension: Economic Development 53

Part Two Headwinds of Research Innovation 69

- 5 Slowdown and Erosion 71
- 6 Non-reproducible Research 89
- 7 Red Tape and Litigation 109

Part Three Boosters of Research Productivity 131

- 8 Humanism for Innovation 133
- 9 Desire to Understand First 151
- 10 Learning from the Best 169

11	Cracking Public Health Needs	183
12	Engaged Research	197
13	Cross-cultural Convergence	215
14	Targeting and Repurposing	229
15	Trailblazing Technologies	243
16	Emulating Nature	259
17	Scientific Modeling	273
18	Mastering Bioentrepreneurship	291
19	Art of Scientific Communication	309
	Part Four Atmosphere of Excellence	329
20	Quality and Performance Improvement	331
21	Institutional and National Strategies	345
22	International Collaboration and Competition	365
	List of of award-winning scientists and serial innovators	381
	Subject Index	387
